PETITION TO REVIVE UNDER 37 CFR § 1.137(b)

Mail Stop Petition
Office of Petitions
Commissioner for Patents
P. O. Box 1450
Alexandria, VA 22313-1450

FAX RECEIVED**MAY 08 2003****PETITIONS OFFICE**

This is a Petition to revive unintentionally abandoned application. This Petition is a substitute to a previously filed Petition to Revive under 37 CFR §137(a), which was filed on March 12, 2003.

The above identified application became abandoned for failure to timely pay the issue fee, which was due on January 23, 2003. The abandonment date of this application is January 24, 2003.

Applicant hereby petitions for revival of this application and this petition is supported by:

1. A petition fee to revive an unintentionally abandoned patent application \$1,300.00;
2. A request for continued examination (RCE);
3. The fee for the RCE of \$750.00 is enclosed herewith;
4. No terminal disclaimer is required because the application was filed in 1999;
5. An Information Disclosure Statement with two references; and
6. A statement of unintentional abandonment:

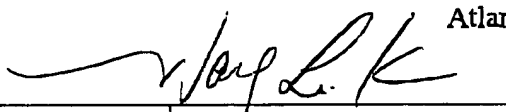

The entire delay in filing a RCE was unintentional because Applicant was waiting to hear from the Examiner about the two timely submitted IDS' that the Examiner failed to acknowledge.

The Patent Office also failed to respond to the Status Inquiry that was submitted on December 13, 2002. Applicant made the inquiry because the Examiner failed to acknowledge with the Notice of Allowance two IDS' submitted timely on 10/20/1999 and 2/11/2000. The copies of the IDS' originally submitted with postcards file-stamped by the Patent Office were included in the inquiry. Because the IDS' were timely filed, they must be considered by the Examiner prior to the issuance of the patent.

Please convert the fee code for the previously submitted issue fee to RCE fee and apply the difference (\$530.00) toward the current Petition fee for unintentional abandonment. Enclosed is a credit card payment form (PTO-2038) for \$660.00, which, together with the aforementioned difference (\$530.00), covers the difference between the previously submitted Petition fee of \$110 and the Petition fee for unintentional abandonment of \$1,300.00.

Respectfully submitted,
Heinrich et al.

NOTE: The filing date of a national application under 37 C.F.R. 1.97(b) has two possible meanings. Where the filing is a direct one to the United States Patent & Trademark Office, the filing is defined by 37 C.F.R. 1.63(b) as "the date on which the specification containing a description pursuant to 37 C.F.R. 1.61 and at least one claim pursuant to § 1.70; and (2) any drawing required by § 1.81(a), are filed in the Patent and Trademark Office in the name of the actual inventor or inventors as required by § 1.41." 37 C.F.R. 1.97(b)(1). On the other hand, an international application that enters the national stage occurs when the applicant has filed the documents and fees required by 35 U.S.C. § 371(c) within the periods set forth in § 1.494 or § 1.495. 35 U.S.C. § 371(c) requires the filing of the following: (1) the national fee; (2) a copy of the international application, unless already sent by the International Bureau, and an English translation if filed in another language; (3) amendments under PCT Article 19, with a translation into English if made in another language; (4) an oath or declaration; and (5) a translation into English of any annexes to the international preliminary examination report, if such annexes were made in another language. 37 C.F.R. 1.97(b)(2).

IDENTIFICATION OF TIME OF FILING THE ACCOMPANYING INFORMATION DISCLOSURE STATEMENT

The information disclosure statement submitted herewith is being filed within three months of the filing date of the application or date of entry into the national stage of an international application or before the mailing date of a first Office action on the merits, whichever event occurs last. 37 C.F.R. 1.97(b).

NOTE: "No certification or fee is due when the filing is made within the above time period. It is advisable to ensure that no Office action has been mailed if the disclosure statement is delayed until after three months from filing."

NOTE: "An information disclosure statement will be considered to have been filed on the day it was received in the Office, or on an earlier date of a mailing if accompanied by a properly executed certificate of mailing under 37 C.F.R. 1.8, or Express Mail certificate under 37 C.F.R. 1.10. An Office action is mailed on the date indicated in the Office action." Notice of April 20, 1992 (1138 O.G. 37-41, 39).

NOTE: "The term 'national application' includes continuing applications (continuations, divisions, continuations-in-part) so three-months will be measured from the actual filing date of an application as opposed (sic) to the effective date of a continuing application." Notice of April 20, 1992 (1138 O.G. 37-41, 39).

NOTE: "An action on the merits means an action which treats the patentability of the claims in an application, as opposed to only formal or procedural requirements. An action on the merits would, for example, contain a rejection or indication of allowability of a claim or claims rather than just a restriction requirements (37 C.F.R. 1.142) or just a requirement for additional fees to have a claim considered (37 C.F.R. 1.16(d)). Thus, if an application was filed on Jan. 1 and the first Office action on the merits was not mailed until six months later on July 1, the examiner would be required to consider any proper information disclosure statement filed prior to July 1." Notice of April 20, 1992 (1138 O.G. 37-41, 39).

WARNING: "A petition for suspension of action to allow applicant time to submit an information disclosure statement will be denied as failing to present good and sufficient reasons, since 37 C.F.R. 1.97 provides adequate recourse for the timely submission of prior art for consideration by the examiner." Notice of July 6, 1992 (1141 O.G. 63).

the filing is a direct one to the United States Patent & Trademark Office, the filing is defined in 37 C.F.R. 1.53(b) as "the date on which: (1) a specification containing a description pursuant to 37 C.F.R. 1.81(a), is filed; and (2) any drawing required by 37 C.F.R. 1.81(a), is filed." 37 C.F.R. 1.53(b)(1). On the other hand, an international application that enters the national stage occurs when the applicant has filed the documents and fees required by 35 U.S.C. § 371(c) within the periods set forth in 37 C.F.R. 1.494 or 37 C.F.R. 1.495. 35 U.S.C. § 371(c) requires the filing of the following: (1) the national fee; (2) a copy of the international application, unless already sent by the International Bureau, and an English translation if filed in another language; (3) amendments under PCT Article 19, with a translation into English if made in another language; (4) an oath or declaration; and (5) a translation into English of any annexes to the international preliminary examination report, if such annexes were made in another language. 37 C.F.R. 1.97(b)(2).

IDENTIFICATION OF TIME OF FILING THE ACCOMPANYING INFORMATION DISCLOSURE STATEMENT

The Information disclosure statement submitted herewith is being filed within three months of the filing date of the application or date of entry into the national stage of an international application or before the mailing date of a first Office action on the merits, whichever event occurs last. 37 C.F.R. 1.97(b).

NOTE: "No certification or fee is due when the filing is made within the above time period. It is advisable to ensure that no Office action has been mailed if the disclosure statement is delayed until after three months from filing."

NOTE: "An information disclosure statement will be considered to have been filed on the day it was received in the Office, or on an earlier date of a mailing if accompanied by a properly executed certificate of mailing under 37 C.F.R. 1.8, or Express Mail certificate under 37 C.F.R. 1.10. An Office action is mailed on the date indicated in the Office action." Notice of April 20, 1992 (1138 O.G. 37-41, 39).

NOTE: "The term 'national application' includes continuing applications (continuations, divisions, continuations-in-part) so three months will be measured from the actual filing date of an application as opposed (sic) to the effective date of a continuing application." Notice of April 20, 1992 (1138 O.G. 37-41, 39).

NOTE: "An action on the merits means an action which treats the patentability of the claims in an application, as opposed to only formal or procedural requirements. An action on the merits would, for example, contain a rejection or indication of allowability of a claim or claims rather than just a restriction requirements (37 C.F.R. 1.142) or just a requirement for additional fees to have a claim considered (37 C.F.R. 1.16(d)). Thus, if an application was filed on Jan. 1 and the first Office action on the merits was not mailed until six months later on July 1, the examiner would be required to consider any proper information disclosure statement filed prior to July 1." Notice of April 20, 1992 (1138 O.G. 37-41, 39).

WARNING: "A petition for suspension of action to allow applicant time to submit an information disclosure statement will be denied as failing to present good and sufficient reasons, since 37 C.F.R. 1.97 provides adequate recourse for the timely submission of prior art for consideration by the examiner."
